

## ARRANGES FOR HIKE TO PEAK

Warren L. Wattis Makes Plans for Climb By Salt Lakers

Warren L. Wattis, named by the Ogden chamber of commerce as Ogden superintendent of the Wasatch Hiking club's expedition to Mount Ogden, today announced arrangements for the hike.

Ogden and Salt Lake hikers will meet at the Central Junior high school, Twenty-fifth street and Jefferson avenue, prepared to depart at 8 o'clock tomorrow (Saturday) evening.

The Salt Lake hikers will be divided into groups of 10 or 15, and one or more Ogdenites will be placed with each Salt Lake group.

A group of Ogden climbers will be sent on ahead to enter a supply of fire wood for a big campfire at Mountain Heights, where the hikers will stop for one hour and one-half for refreshments before proceeding on to the summit.

Hikers are expected to take along enough food for two meals. The plans call for the ascent of Mount Ogden by moonlight and the party should reach the peak in ample time to see the moon set and the sun rise.

About 100 members of the Salt Lake Hiking organization will journey to Ogden in automobiles. Mr. Wattis has arranged for these Salt Lakers to use the Central Junior high school as headquarters. They will have the facilities of the pool and showers. Their parked automobiles will be given police protection.

Mr. Wattis has named the following to assist him in organizing the hike: Lew Wallace, Allen Stevens, S. H. Henderson and Victor Wallace. He expects to name others later.

Any interested Ogdenites are invited to hike to peak with the Salt Lake organization. Those desiring to go are requested to give their names to Mr. Wattis at the Utah National bank.

## TO OPEN BIDS FOR MONTPELIER ROAD

Bids for the construction of the Montpelier-Alton road in Idaho were to have been opened at the offices of the U. S. bureau of public roads last afternoon. This project which is 14 miles in length will be completed during the summer months. It is stated.

A road party headed by C. E. Fish, chief of party, departed today to make preliminary surveys of this project.

## Brick Hurlled at Car Causes Injury to Boy

The plate glass windows of Dr. E. M. Conroy's sedan attracted two rocks yesterday and one of the missiles struck Hassett Shuffelbarger in the head, causing two gashes nearly two inches long.

In the automobile with young Shuffelbarger were Louis Conroy and Gerald Corey. They were riding in the front seats.

As the car was passing Twenty-fifth street and Harrison last night at 11:30 o'clock one of a group of boys hurled a brick at the car. It crashed through the window and struck the Shuffelbarger boy in the head.

The injured boy's companions gave chase to the assailants, but they disappeared in the dark.

Returning from Salt Lake yesterday afternoon, the car was broken by a rock hurled by a boy at Kaysville.

## RAIN NEEDED FOR DRY LAND CROPS

Rain is generally needed throughout the state and dry land grains are particularly in need of relief, according to the weekly summary of weather, crop and range conditions in Utah issued yesterday by the Salt Lake weather bureau.

Beneficial showers occurred in some sections of the state, but more particularly in the mountains. Watered crops continued to make satisfactory growth. Weather conditions have favored hay making and the first cutting of alfalfa is generally completed. Livestock are generally doing well, though their condition is only fair locally.

Peach and apple crops are in good condition in the major fruit sections.

## BUTTERY TO FACE TRIAL, JUDGE SAYS

T. R. Buttery, Salt Lake automobile man, who fled from County Motorist Officer George Theobald in a shower of lead from the officer's pistol, will be brought to trial in the city court, it was indicated by Judge J. G. Willis this morning. Buttery's trial was set for this morning, but when he failed to appear Judge Willis declined to accept the forfeiture of \$75 deposited by Buttery, and ordered that he be brought into court for trial. Officer Theobald attempted to arrest Buttery for speeding on the county highway. When the automobile did not stop, Theobald opened fire with his pistol, but the fleeing motorist only increased his speed. At the Weber-Davis county line, the chase was abandoned.

## PICK GOLFERS GOING TO S. L.

More Than 40 of Ogden Club to Play in Return Match

More than 40 golfers of the Ogden Golf and Country club will tee off with golfers of the Salt Lake club on the green at Salt Lake Sunday morning in the second team match of the season. In a recent match played here the Ogdenites were victors by a score of 43 to 40.

Harry Webster of Salt Lake and Lewis Crook of Ogden are in charge of the team match.

Following is the complete list of the Ogden golfers who have signed for the match play together with their medal and match play handicaps:

Player	Medal	Match
Leon Keller	1	6
Lewis Crook	2	9
E. M. Murphy	3	8
P. T. Wright	4	6
Warner Arthur	5	7
R. E. Bristol	6	7
W. B. Felt	7	7
Heber Scowcroft	8	10
J. P. Ellis	9	10
R. W. Dunn	10	10
S. M. Scott	11	10
W. H. Harris	12	11
W. H. Kimball	13	11
George Glen	14	12
John L. Taylor	15	12
L. A. Herdli	16	12
Richard Leek	17	13
O. H. Presbury	18	13

A. R. Higelow	20	15
A. Olson Douglas	21	15
Harry Gre	22	15
C. E. Kaiser	23	15
E. W. Cannady	24	16
John N. Spargo	25	16
L. S. Corey	26	16
J. H. Andrews	27	16
Dr. Mark Brown	28	16
Arthur Woolley	29	16
Dr. Brown	30	17
C. A. Day	31	17
Paul Wattis	32	17
Rolf Gwilliams	33	18
W. S. W. Wherry	34	18
H. B. Adams	35	21
W. V. Rockefeller	36	21
W. H. Loos	37	21

## CARD OF THANKS

We wish to express our sincere thanks to all those who kindly assisted us in our bereavement in the loss of our daughter, Alice, for the beautiful remarks, flowers, singing and courtesies shown to us.

MIL AND MRS. JAS. KUTBOSCH

John W. Thomas, well known insurance man of Wilmington, Del., who declares Tanlac promptly overcame his stubborn stomach trouble and run-down condition following two attacks of influenza. Gains weight and now feels fine.

"The flu left me in such a run-down condition life was miserable and work a burden," declared John W. Thomas, well-known insurance man, 500 Tenth St., Wilmington, Del., in a recent statement regarding Tanlac. "Twice I was a victim of the flu," he continued. "The last time about two years ago, and since then I suffered from stomach trouble, nervousness and dizzy spells. After eating, gas on my stomach worked up through my chest and made my heart beat so fast it alarmed me and I nearly smothered. I could never get a good night's sleep and got up mornings with a mean taste in my mouth and all tired out. "Other medicines seemed to do me harm instead of good, but three bottles of Tanlac rid me of indigestion, the nervousness and dizziness. My sleep is restful and I am feeling like a different man. Tanlac is certainly great."

Tanlac is sold by all good druggists.—Advertisement.

**FIELD DAY.**  
The Martha Society will hold its annual field day Monday, July 10, at the Bristol summer home in Ogden canyon. Luncheon will be served at 1 p. m. Sustaining and active members will be present. Reports will be given after which a program will be enjoyed.

**PICNIC AT LAGOON.**  
The Esther club will have a picnic at Lagoon Saturday afternoon and evening. They will leave Ogden on the 3:30 p. m. interurban. All going will take a basket lunch, and a picnic luncheon will be served at 7 o'clock.

## PROGRESS ON ROAD PROJECTS OUTLINED

Progress in the state highway building program in the northern section of the state is shown a report compiled yesterday by Chas. Hayward, chief draughtsman for the state road department, and submitted to Howard C. Means, state road engineer for the information of the commissioners. Referring to matters affecting the northern section of the state and in the vicinity of Ogden, the report stated:

The two Ogden canyon bridges are now 5 per cent finished, but some revision of estimates will have to be made to change the 100-foot span of one of the structures from steel to concrete.

Revised plans for the Riverdale overhead crossing, estimated to cost \$856,525.91, to be borne by the state, federal bureau and the Union Pacific, have been submitted to the railroad for approval. Approximate amount of the costs has not yet been ascertained.

The survey of the Wellsville-Box Elder county line grading project is 90 per cent complete. Plans and estimates will be ready about August 1.

The project agreement on the Brigham City-Corinne is being withheld temporarily pending a decision as to the routing of the secondary road through Box Elder county. In the meantime, the state has submitted plans and estimates to the bureau so that no delay may be experienced when the federal highway system has been selected.

Revision of plans on the surfacing of the Farmington overhead crossing are being changed to include the installation of a lighting system and certain repairs to the bridge abutments.

The relocation survey on the Morgan-Petersen gravel surfacing project is 20 per cent finished.

Revision of plans on the surfacing of the Farmington overhead crossing are being changed to include the installation of a lighting system and certain repairs to the bridge abutments.

This is the cream of the stock. A string of not less than \$12 from our originally low prices. Suits for men of all ages, all sizes, styles that you will wear all summer and fall. Buy up \$50 values. This week.....\$38

released upon bond of \$500. He appeared in city court today, represented by Attorney Joseph B. Bates, and his preliminary examination was set for July 20.

## TO MAKE SURVEYS FOR FOREST MAPS

For the purpose of making surveys for maps to be used principally in fire protection work, C. D. Jackson, surveyor-draughtsman of the forest service, will leave Ogden tomorrow for Idaho. At Cascade, Idaho, he will join a surveying crew that will collect data from the forests throughout Idaho.

In Japan keys turn in their locks in the opposite direction from that customary to us.

Certain chemicals used in dyework are now said to have strong curative values in cases of human ailments.

## IDAHO ROADS IN EXCELLENT SHAPE

Roads in Idaho are in good condition and the travel is breaking all records, according to C. W. Cross, chief locator of the United States bureau of public roads, who returned to Ogden today from an inspection tour of a number of roads in that state. Mr. Cross inspected the Horseshoe bend, Cascade, Knox, Warren wagon road and roads at Boise and McCall before returning to Ogden.

The Warm River Yellowstone road is now being traveled and will be ready for use within the next few days, he said.

One section of the Warm river project is being worked along a length of 4 1/2 miles, Mr. Cross stated.

## EDEN MAN HELD ON LARCENY CHARGE

Roy Montgomery, 22 years of age, of Eden, was arrested last night by Sheriff Richard Pincok on a grand larceny charge for the alleged theft of implements, a wagon, stove and other articles from the Hansen livestock ranch near Promontory. The articles are said to have been taken to the Eden farm.

The complaint was signed by Stanley Forsak, former foreman of the Hansen ranch.

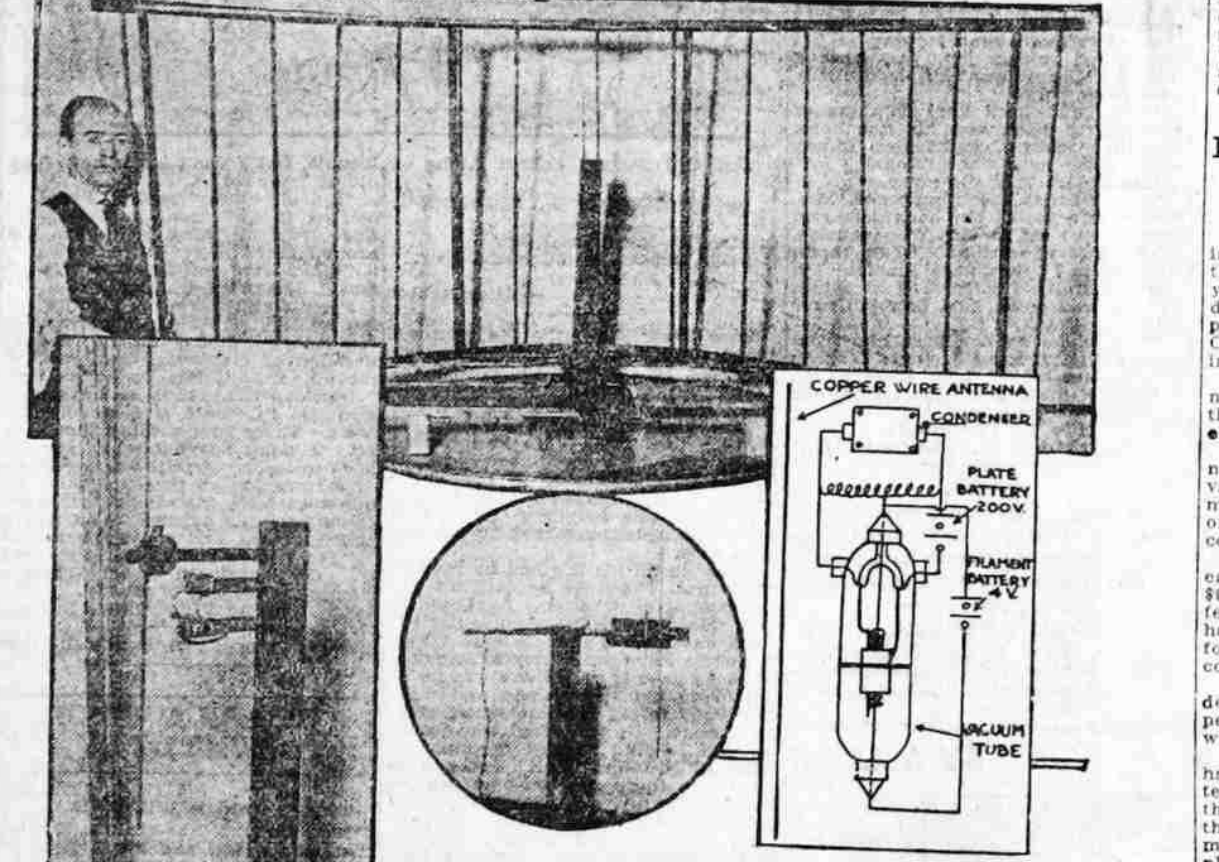

Montgomery, when arrested, denied that the articles were stolen and said they had been purchased. He was

## RADIO SEARCHLIGHT TAKES TERROR FROM STORM

MARCONI'S "RADIO SEARCHLIGHT" ABOVE. BELOW, LEFT, CLOSE-UP OF THE TRANSMITTER; CENTER, THE RECEIVER; RIGHT, DIAGRAM OF THE TRANSMITTER.

The transmitter consisted of a foot of copper wire held up vertically to serve as an antenna, a miniature vacuum tube and an oscillatory circuit composed of about three inches of wire and a tiny condenser built from alternate layers of tin-foil and mica.

This type of vacuum tube is quite common in England, where it is used to convert the energy supplied by batteries into oscillatory energy having a frequency of 300,000,000 cycles a second.

## SIMPLE RECEIVER.

The receiver used a like antenna which had associated with it an extremely small tuned detector circuit of a crystal detector and a few turns of wire on a half-inch tube. To this receiver was attached a loud-speaker which could hear the signals.

Wave lengths as short as these may be reflected the same as light waves. The transmitter was housed within a reflector. When this was turned even slightly away from the direction of the transmitter, no signals were recorded at the receiver.

## GET U. S. WEATHER REPORTS ON LONG WAVE RECEIVER

QST de NNA, USWB, R0812-1, T01224 - DB00251, H009421, C01250-K00151-P01242-B01151.

Looks like a secret report of a department of justice operative to his chief. But it isn't. It's a weather bulletin broadcast from the U. S. naval radio station at Arlington.

You can receive this report twice a day—at noon and 10 at night—if you can tune in to 2600 meters wave length. And you can understand the report—if you know the code.

The letter before each of the groups of numerals stands for a central point in a weather district for which reports are made. They are: S—Sidney, Nova Scotia; T—Nantucket, R. I.; DB—Delaware Breakwater; H—Cape Hatteras, N. C.; C—Charleston, S. C.; K—Key West, Fla.; P—Pensacola, Fla.; B—Bermuda.

The first three numerals represent the barometer reading. In the Sidney district, for example, the barometer reading would be 30.21.

## RADIO PRIMER

**NATURAL FREQUENCY**—The natural wave length of an aerial or circuit without the introduction of any other part that would tend to alter this wave length.

## GERMAN MARKS GO TO LOWER LEVELS

NEW YORK, July 7.—German marks today fell to the level of 100 for 13 1/2 cents or almost 3 cents per hundred under the minimum established Thursday. Dealers attributed the decline to disturbing economic conditions in Germany.

## Palm Beach Suits \$10 Twenty of Them

A palm beach suit will give you comfort, hot weather, and will last you three years, maybe more. Here are twenty that were here last year. Most of them young men's models. Sizes are 33 to 38. To the first twenty who come for them, the price will be... \$10

## LEGAL NOTICES

**NOTICE TO CONTRACTORS.**  
Notice is hereby given that the Davis and Weber Counties Canal Company proposes to move approximately 10,000 cubic yards of earth at a point on its canal in South Weber and sealed bids are invited for said work and will be received at the office of the Company, 602 Eccles Building, Ogden, Utah, until 10 o'clock a. m. on the 10th day of July, 1934. Instructions to bidders for said work can be secured at the office of the company.

The right is reserved to reject any and all bids.

**ROBERT C. NYE,**  
Secretary.

## NOTICE OF INTENTION.

Notice is hereby given by the Board of Commissioners of Ogden City, Utah, of the intention of said Board of Commissioners to make the following described improvement, to-wit: To create Fifthteenth street between Ogden and Jefferson avenues, Sixteenth and Seventeenth streets, Ogden avenue between Fifteenth and Sixteenth streets, and Canyon road, and both sides of street and Ogden river bridge at Sixteenth district, and to construct thereon a sewer of vitrified or concrete pipe of sufficient capacity, and all other things necessary to complete the whole in a proper manner according to the plans specified by the city engineer, and to defray the whole cost of the cost and expense of the whole project therefor by a levy of a special tax to be assessed upon the lots or pieces of ground within the following described district being the district to be affected or benefited by such improvement, namely:

All the land lying between the outer boundary lines of said streets and a line parallel to said outer boundary lines on both sides of said streets between the units named, saving Blocks 1 to 3 both inclusive, Riverside Addition, Block 1 to 3 both inclusive, Forestdale Addition, Block 1 to 3 both inclusive, Block 66, Flat "C", Block 1, Grove Addition, Block 7, Five Acre Flat "A", Block Ogden City survey. Also the southeast corner of Section 20 Township 6 North, Range 1 West, Salt Lake Base and Meridian, United States survey.

The total cost of said improvement is estimated at \$20,000.00.

All protests or objections to such improvement must be made in writing, signed by the owners of abutting property, describing the same, together with the

number of abutting front feet as shown on the City Recorder on or before the 25th day of July, 1934.

The Board of Commissioners in its regular meeting thereafter, held on the 26th day of July, 1934, will consider proposed levy and hear and decide upon such protests or objections made.

By order of the Board of Commissioners of Ogden City, Utah.

Dated July 3, 1934.

C. J. DONOHUE, City Recorder.
